

**Zoning Ordinance Section 27-A.06.04(B) Regulating Intersections.**

On any corner lot where a front and side yard is required, no wall, vehicle, fence, sign, structure, or any plant growth which materially obstructs sight lines at elevations between two and one-half feet (2½') and ten feet (10') above the crown of the adjacent roadway shall be placed or maintained within a triangle formed by measuring from the point of intersection of the front and exterior side lot lines a distance of twenty-five feet (25') along the front and side lot lines and connecting the point so established to form a slight triangle on the area of the lot adjacent to the street intersections.

In any required front yard, except as provided in (1) above, no fence, wall, hedge or yard ornament shall be permitted which materially impedes vision across such yard above the height of three and one-half feet (3½').
